

GARY A. MURRAY

PHOTOGRAPHER · FILMMAKER · FOUNDER · STORYTELLER

BIO

Gary A. Murray started hustling before he had a real job: shoveling driveways, raking leaves, sweeping hair at a barbershop, selling gum out of his locker in high school because even then he understood margins. That same instinct, find a need, do the work, figure out the rest, built everything since. He bought his first camera in college and never put it down. Today, based in the DFW area, he's the founder of 4Story Media and 425 Films, still doing the same thing that got him started: finding the real story and telling it well.
